The Commonwealth
iLibrary

About

The Commonwealth, a voluntary association of 53 independent and equal sovereign states, is home to 2.4 billion people and includes both advanced economies and developing countries. Thirty-one of our members are small states, many of which are island nations.

We help to strengthen governance, build inclusive institutions and promote justice and human rights. Our work helps to grow economies and boost trade, empower young people, and address threats such as climate change, debt and inequality.

Each year, The Commonwealth publishes around 30 new titles on a range of topics in which it has particular insight and expertise including gender, education, globalisation, public service management and human rights. These publications are available online in a single research repository, The Commonwealth iLibrary. The Commonwealth iLibrary was developed with OECD Publishing as a part of the iLibrary Partnership.

Content

1. Click on ‘Less’ or ‘More’ to see summaries of the series, title or chapter.

2. Click to access the entire publication in the available formats. The options shown in this example are PDF and READ.

3. From the table of contents menu, components of the publication can be accessed by clicking on the available formats on the right, or this component can be added to ‘My Favorites’ by clicking on the green star icon on the left.

4. Use the options on the right side to:

   - ‘Buy This Book’ from The Commonwealth Bookshop
   - ‘Cite This Publication’: A pop-up window will appear to display the recommended form of citation. You can also download the citation data for a variety of bibliographic reference tools.

Global Youth Development Index and Report

2016

There are more young people in the world today than ever before. Yet surprisingly little is known about the current state of affairs in youth development. Measuring the well-being of young people continues to be a challenge, even though its importance is widely recognised. The Global Youth Development Index and Report provides an evidence-based overview of the state of development for the world's young people, defined by the Commonwealth as those between the ages of 15 and 30. The Youth Development Index (YDI) is a composite index of 18 indicators that collectively measure progress on youth development. The YDI has five domains, measuring levels of education, health and well-being, employment and opportunity, political participation and civic participation among young people.
